Summary

I have 4 years+ experience.

Therefore, I have met some common types of Software Testing, which used mainly in the testing life cycle.

Functional Testing: System, Sanity, Smoke, Interface (GUI).

Non-functional Testing: Stress, Volume, Compatibility.

Backend Testing: SQL Server, HeidiSQL, MongoDB, MariaDB.

Application programming interface (API) testing, Postman.

Test Cases, the best bug preventers known.

Experience

Software Tester | QA Engineer

2016 – Present

Projects

EpochMediaGroup

Videohub application for videos and their providers.
